WORK EXPERIENCE

Software Engineer Simply Compete Inc.

07/2022 - Present

Pune, India (Remote)

Sports Management Platform

Achievements/Tasks

- Spearheaded the development of a table tennis event management web application as a Full Stack Developer.
- Engineered native, reusable Web Components for an in-house UI library using HTML, CSS, and TypeScript, enhancing user experience while optimizing code reusability, scalability, and maintainability across multiple projects.
- Developed and maintained **scalable RESTful APIs** using **Java 8+**, **Spring Boot**, and **Vert.x**, ensuring optimal backend performance and **microservices integration**.
- Designed and implemented **low-level designs (LLD)** for core platform modules, focusing on **API design, database schema design, and caching strategies**.
- Built an admin management module allowing event organizers to add, update, and delete administrators seamlessly.
- Worked extensively with relational databases such as MySQL and SQLite for data persistence. Gained expertise in Google Material Design, Webpack, NodeJS and JSX, improving the front-end workflow.

Software Development Intern Simply Compete Inc.

01/2022 - 07/2022

Pune, India

Sports Management Platform

Achievements/Tasks

- Revamped the company [website](#) from scratch using Google's [AMP](#) framework, enhancing loading speed and performance by approximately 300%. Turned the static website into Progressive Web Application (PWA).
- Developed interactive and responsive UI using HTML, CSS, JavaScript, and TypeScript.
- Implemented Java unit testing using Mocha, improving the reliability of application features.

Software Development Trainee Studustry

06/2021 - 09/2021

Remote

E-Learning Providers

Achievements/Tasks

- Contributed to a React-based web application that provided insights and management for industrial IoT devices.
- Designed and developed front-end components, improving the platform's usability.

EDUCATION

B. Tech. Vishwakarma Institute of Technology

08/2018 - 05/2022

Pune, India

Courses

- Information Technology / Computer Science

SKILLS

Core Java 8+

Multithreading/Concurrency

REST APIs

Microservices

SpringBoot

Hibernate

Gradle

Vert.x

JUnit

Typescript

React

Javascript

HTML5

CSS3

NodeJS

Webpack

Material UI

MySQL/SQLite

OOP/SOLID Principles

Design Patterns

PERSONAL PROJECTS

Code Chronicles: Leetcode (Open Source Contributor)
(04/2024 - 09/2024)

- Contributed 3-4 Pull Requests (PRs) to the open-source repository [Leetcode Curriculum](#), improving Data Structures & Algorithms (DSA) implementations in Java.
- Followed **best coding practices**, including writing clean, well-documented code and adhering to repository contribution guidelines.
- Few piece of work PRs: [Integer digits PR](#), [double stream PR](#)

Java Playground (01/2025 - Present)

- Web application that offers users a lightweight, isolated environment to run and test a standalone java code.
- Key features: **Code editor-like interface** for seamless coding experience, **Secure and high-performance execution** of Java programs.
- Hosted on Github: <https://github.com/utsavatwork/java-playground>

ACHIEVEMENTS

Open Source Contribution on Github (06/2024 - 12/2024)

Contributed to open-source community with multiple PRs, issues, discussions, etcetera.

Certification: Full Stack Web Developer Bootcamp
(01/2021 - 06/2021)

Completed a Full Stack Web Developer Bootcamp on Udemy, gaining hands-on experience in web development fundamentals and the MERN stack (MongoDB, Express.js, React, Node.js).
